ATSDR will submit a report based on the site investigation and historical data that will be part of EPA's site files and will be available to the public. Carrier will be sent a copy of the report after it is finalized.

Activities to be conducted during the investigation may include:

1. Inspect the site and surrounding area;
2. Sketch the site;
3. Photograph the premises.

EPA is requesting permission for access to your property on April 10, 1989, to conduct this investigation.

If you will voluntarily give permission for EPA to conduct the above described investigation of the Carrier property, please sign and return the original of this letter to:
